

ECOAIR Compressor Dehumidifier

ESSENTIAL Dehumidifier

EcoAir introduces the new ESSENTIAL dehumidifier in Spring 2016. This fuss-free, simple to use dehumidifier is modern and robust, an **exceptional value** for money little beast that silently dehumidifies in the background.

The ESSENTIAL is equipped with an auto defrost function to help prolong the life of the dehumidifier and a continuous drainage option to save emptying the tank regularly.

Moving the ESSENTIAL between rooms is a simple process with its 'Easy Glide' castors. The Essential features a 'Tank Full' indicator and it automatically shuts down when the water tank is full. It has an 'Auto Restart' function which enables the dehumidifier to be reinstated after an interruption to your power supply.

ESSENTIAL comes with a Laundry Mode that helps dry your laundry quickly.

Easy Electronic Control Panel

Easy Accessible Front Loading Water Tank

Discreet Continuous Drainage Option

FEATURES
